Message From The President:

Fellow members: As Dick Zaverl mentioned in his personal communication at the end of September, he has severed ties with the club. I will only say that his expectations of familial meal service and perception of the events the day of the shoot differs significantly from the other members present. Dick did not mention his issue during the event, but sent me an email later outlining his complaints. Recognizing that he was very upset, I responded and offered an apology from the club, along with a request that he forgive, as did Mark Zaller in a separate communication. He was unable to forgive, and therefore resigned. His resignation has been accepted, a final apology for the perceived slight was sent, and he is no longer a member of club. Conrad Mencewicz has volunteered to write the newsletter going forward. Respectfully, Tim Murphy, President.

Housekeeping:

Cabin and firewood pile are in good shape, thanks to all of those who attended a work party this year.

Bow season is now open and an abbreviated wild turkey season runs from October 15-28, please be respectful of the hunters when visiting camp. Deer hunting, including bow, is restricted to members and their immediate family members. Shotgun opens November 19th, the November meeting will be held at the cabin at 6pm. The first week of shotgun season is reserved for members only, with family members welcomed after the first week.

At the September meeting, a resolution from the floor to ban smoking in the cabin was discussed and debated. The resolution passed unanimously, and therefore smoking is no longer permitted in the cabin. Please be respectful of your fellow members and refrain from smoking in the cabin.

News:

The club hosted another successful NY State Hunter Education Class instructed by Mark Zaller on September 11th. Eighteen students were issued Certificates. Mark has the following message:

I wish to thank the Club for donating lunch and the camp grounds and also to every volunteer who once again devoted their day assisting. Tim Murphy, Ken Heist, Joe Nagy, our instructor friend Charlotte and Conrad Menclewicz.(and anyone else who may have missed mention).
