60 Grace St.
Buffalo N.Y. 14207

Buffalo Rod and Gun club.
President Elmer Kobel jr
President Kobel.

After due consideration I hereby tender
my resignation to the Buffalo Rod and Gun
club and relinquish all rights and privileges
granted me as an associate member.

I feel that I can not carry out my
duties as an active member; unable to attend
meetings, unable to attend active camp functions
and so on.

Please find enclosed; camp key,
membership card and check for dues to date

It is with regret and careful consideration
that I do this and I shall have many
fond memories of past time with the
Buffalo Rod and Gun club.

Regretfully yours
Peter F. Lagon

P.S. Please acknowledge this resignation
Thank you.

DCK/jk
CC: President

The first part of the course covers the basic concepts of algebra, including the properties of numbers and the operations of addition, subtraction, multiplication, and division. It also introduces the concept of a function and the relationship between a function and its graph.

The second part of the course covers the basic concepts of geometry, including the properties of lines, angles, and polygons. It also introduces the concept of area and the relationship between area and perimeter.

The third part of the course covers the basic concepts of trigonometry, including the properties of right-angled triangles and the relationship between the sides and angles of a triangle.

The fourth part of the course covers the basic concepts of calculus, including the concept of a derivative and the relationship between a function and its derivative. It also introduces the concept of an integral and the relationship between a function and its integral.

The fifth part of the course covers the basic concepts of statistics, including the concept of a mean and the relationship between a mean and a standard deviation. It also introduces the concept of a normal distribution and the relationship between a normal distribution and a standard deviation.

The sixth part of the course covers the basic concepts of probability, including the concept of a probability and the relationship between a probability and a standard deviation. It also introduces the concept of a binomial distribution and the relationship between a binomial distribution and a standard deviation.

The seventh part of the course covers the basic concepts of vectors, including the properties of vectors and the relationship between a vector and its magnitude. It also introduces the concept of a dot product and the relationship between a dot product and a standard deviation.

The eighth part of the course covers the basic concepts of matrices, including the properties of matrices and the relationship between a matrix and its determinant. It also introduces the concept of a linear transformation and the relationship between a linear transformation and a standard deviation.

The ninth part of the course covers the basic concepts of complex numbers, including the properties of complex numbers and the relationship between a complex number and its conjugate. It also introduces the concept of a complex plane and the relationship between a complex plane and a standard deviation.

The tenth part of the course covers the basic concepts of differential equations, including the concept of a differential equation and the relationship between a differential equation and a standard deviation. It also introduces the concept of a solution curve and the relationship between a solution curve and a standard deviation.

The eleventh part of the course covers the basic concepts of partial differential equations, including the concept of a partial differential equation and the relationship between a partial differential equation and a standard deviation. It also introduces the concept of a solution surface and the relationship between a solution surface and a standard deviation.

The twelfth part of the course covers the basic concepts of integral equations, including the concept of an integral equation and the relationship between an integral equation and a standard deviation. It also introduces the concept of a solution curve and the relationship between a solution curve and a standard deviation.

November 11, 1965

The meeting opened at 8:30 p.m. with Pres. M. Kobel presiding.

ROLL CALL OF OFFICERS: Absent: P. Greene

The minutes of the previous meeting were read and a motion was made by D. Walter seconded by H. Paluch to accept them as read, carried.

TREAS. REPORT: Balance \$1,253.78 N. Eberle made a motion to accept the Treas. report as read, seconded by A. Grupp, carried.

B. OF D. Pres. Kobel reported that the B. of D. decided after much consideration that the initiation fee for membership to the club would not be increased at the present time.

NEW MEMBERS: Joseph Loffredo sponsored by R. Kobel.

E.C.F.S.C. A. Grupp read a resolution that the Elma Conservation Club is submitting which would permit a hen and rooster pheasant season in Erie Co.
